Structure: 25 years | Finish: 5 years

FUNCTION

Swivel

Regularly clean with mild liquid detergent or soap and water

DO NOT use cream cleaners or bleach. These substances are abrasive

DO NOT use cleaning pads with abrasive surfaces as this may scratch the material

INSTALLATION GUIDE

Note: This product must be installed by a licensed trade. This is a general installation guide - there are many factors that are involved that can alter the installation method.

- 1) Check that the male brass thread installed in the wall is the correct length. Cut to length if required ensuring end face is square. Apply thread tape to the thread.
- 2) Slide the cover plate onto the arm. Carefully screw the arm onto the brass thread until the threaded end is adjacent to the wall/tile or ceiling face and the outlet is facing down. Do not tighten and be careful not to damage the decorative finish. Push the cover plate until it meets the wall/ceiling face.
- 3) Refer to individual product guide for installation of shower head.

Note: To ensure the shower head is plumb please see the following instructions below;
