INSTALLATION

- 1) Check that the male brass thread installed in the wall is the correct length. Cut to length if required ensuring end face is square. Apply thread tape to the thread.
- 2) Slide the cover plate onto the arm. Carefully screw the arm onto the brass thread until the threaded end is adjacent to the wall/tile or ceiling face and the outlet is facing down. Do not tighten and be careful not to damage the decorative finish. Push the cover plate until it meets the wall/ceiling face.
- 3) Refer to individual product guide for installation of shower head.

Regularly clean with mild liquid detergent or soap and water

DO NOT use cream cleaners or bleach. These substances are abrasive

DO NOT use cleaning pads with abrasive surfaces as this may scratch the material
